

Loads better for lifting & handling

With capacities up to 2000kg Penny Hydraulics' vehicle-mounted cranes and platform lifts are ideal for the safe, reliable and efficient handling and loading of all commercial vehicles.

The MezzLift is a robust and versatile hydraulic platform lift for raising and lowering loads up to 300kg between two floors up to four metres apart in factories, workshops, warehouses and stores.

All Penny Hydraulics' products help you to comply with manual handling regulations and reduce the risk of injury to employees.
